UNDOUBTEDLY THE SLASHER. That he is the perpetrator of each of the throat-cutting exploits, seven in all, which have occurred in the Fourth Ward since Dec 20, there is very little doubt. In fact, the girl whom he married in secret while she was evidence of his guilt is conclusive in at least three cases, and in the others it is overwhelmingly against him.

The question of his moral responsibility will have to be determined later. Inspector Byrnes thinks it sufficient at present to have captured the fiend and to know that he is safe under lock and key, where he will do no Dowd passed last night in the Oak street

Dowd seemed to listen intently to the story.

When an EVENING WORLD reporter visited
the room this morning Dowd's effects were
strewn about the floor. A single bedstead
stood in a corner. The mattress and bed

their search and thrown on the floor.
The floor was bare and dirty. The only furniture was an old wooden chair and a washstand, with a pitcher and basin which looked
as though they had not seen service for some
time. Several other questions were put to the prisoner, but he refused to say anything more, and Capt O'Connor asked that he be committed to await the result of Munier's in-

tline.

Dowd's effects comprised a drab-colored Fall overcoat, two much-worn vests, hanging from hooks on the wall, and books, shoebrushes and a razor-strop.

The police made a complete search of Dowd's room, and carried away everything that they thought could throw light on his doings. nor any of the other shashing incidents in which Dowd is accused of having participated.

Then the Justice turned his attention to the brother, John J. Dowd, who is even a dirlter and nore disreputable specimen than the murderer.

The next step will be to have Dowd indicted, and the indictments will charge him with the murder of Carson as well as all the other throat-cutting assaults which have occurred within the past two weeks.

Inspector Byrnes this morning said that the same course would be pursued with Dowd as in the case of Both, the murderous crank who tried to assasinate Rev. Dr. John Hall.

If it is found by experts that he is mentally unbalanced, he would be sent to the State prison at Auburn, and if he showed there at any time that ne was not hopelessly insame he would be brought back to New York and tried for the crimes which he has committed.
